OBJECTIVE

To build and work on challenging software problems

EDUCATION

Georgia Institute of Technology - Atlanta, GA   December 2014
Bachelor of Science, Major in Computer Science
Concentrations in Intelligence and Theory

EXPERIENCE

ScorebookLive - Remote   June 2020 - September 2024
Senior Full Stack Engineer
· Led front end redesign for the entire site in React, and created our flagship iOS/Android applications from the ground up with React Native.
· Owned the deployment and maintenance of the frontend platform, leveraging a hybrid architecture combining React and Rails.
· Spearheaded the development of new fan engagement features, including interactive game pick'em tracking and dynamic tournament brackets.

Influur - Remote   June 2021 - May 2023, November 2023 - September 2024
Software Consultant
· Joined as the third developer and played the lead role in evolving the product from a minimum viable product (MVP) to a fully functional, production-ready mobile application launched on the App Store, built using Flutter.
· Implemented in-app purchases and subscription flows, integrating with both the Apple App Store and Google Play Store to enable monetization and manage user entitlements.
· Led the development of a new customer-facing web application using Next.js.

The Home Depot - Atlanta, GA   August 2015 - July 2019
Senior Software Engineer
· 2016 Employee of the Year for Store Operations Software (~200 employees)
· Served as technical lead for store returns, which handled ~$11 billion worth of returns a year. Led redesign of system, migrating stores into a centralized cloud architecture (Java/Spring). Supported 20+ store mobile applications.
· Led development for labeling system upgrade. Reduced software footprint from installations on ~2000 stores to four centralized instances
· Managed store facing proof of concept projects, some still in use (digital labels, online pickup lockers).

Mother Nature Network - Atlanta, GA   September 2014 – August 2015
Web Developer
· Led a complete redesign of our largest property (MNN.com) and built individualized widgets for advertising spaces. Maintained several web properties that accumulate approximately 30 million monthly views

Other

Pineapple Cut Pictures - Atlanta, GA   June 2023 - Present
